Some Suggestions About Badges and Post Cerp-HEADQUARTERS GRAND ARMY OF THE REPUBLIC. RUTLAND, VT., March 30, 1891.

General Orders, No. 20. 1. The Commander in-Chief has reason to believe that many comrades are without the badge, and flut many others, although perhaps possessing one, never or very rarely display it at Post meetings or elsewhere. Post Commanders are therefore en-Joined to at once ascertain how many budges are needed in their respective Posts, that each comrade may have one, and to cause requisitions therefor to be immediately forwarded by their Post Quartermisters, that all may be supplied before Memorial Day. They should urge all comrades in attendance at Post meetings, or when on duty elsewhere, on occasions of parade or ceremony to display their budges. A few extra badges should always be in the hands of Post Quariermasters; and upon the death of a comrade measures will be taken to ascerin case they wish to keep it, the Post should furnish | Brown; Surg., E. Church, a new one to be placed on his breast, and to be MISSOURI.buried with him. Comrades upon retiring from may office, elective or staff, in the Order, will cease to wear the rank hadge for such office, and will at once replace the engle at the top of the badgeprescribed by the Rules and Regulations, and all

They will report by mail to the Adjutent General in accordance with instructions they will receive through their respective Department California-Geo. W. Grant, National City.

To Post Commanders.

The Commander-in-Chief suggests that it would increase the interest in Post meetings to have the Hackett. Post officers commit the work, so as to be able to dispense with the book, except for reference. The officers should- especially the new ones-meet and great care should be taken to have the rendering clear and distinct, not burried, but with force an diguity, and the atmost order and decorum should | NEBRASKA.be insisted upon, particularly during any ceremony. The use of the bugle to sound the calls at the opening and close of each meeting is advised, and the music upon the ode-cards should always, I possible, form a part of the service. Many Posts. ose much of the effect of the ceremonies from not leaving the Guards and Sentinels uniformed. Blouses and lints and caps should be provided for these details and kept as the property of the Posts; timels and side-arms for the officers should also be | O. G., Chas. Weintz; Q. M. S., M. Her father was Benjamin Winship, her mother Mary Adams; the former born at West Cambridge,

the latter at Lexington, When she was four years old the family moved from Woburn to New Salem, where, at the age of 21, she married John Boutelie, October, 1812, having become acquainted with him while on a visit to Charleston. She comes of a longlived race, her Grandmother Winship having attained to the age of 97 years and 10 months. She gives the following among her war memories: We lived there during the late war, and our souse was struck a great many times by shot and shell thrown into the city. "I remember quite a laughable incident connected with the dark days of Atlanta, but as this is on a Union soldier you must not mention it in the paper, for they did not do such things; at least some them will say they didn't. A neighbor family of ours had moved out of the city, and they had a young gosling they did not care to take along, and so my daughter bought it, paying \$5 for it; but it

to live on, and all efforts to get her a pension, so far, have been unavailing. Comrade Fleming thinks that the matter should be looked into by some of the members of the old 3d W. DEPARTMENT OF NORTH DAKOTA.

DEAR TRIBUNE: The second annual Convention, Department of North Dakota, W.R.C., held at Lisbon, March 17, 18, and 19, was a great success.
